

Attention CEOs, CELOs, Board of Directors, Committee Members & Staff

The Capitol Area Chapter invites all Michigan Chapters to attend the following education event:

Turn Friction into Flow with DISC Training **Thursday, October 30, 2025**

That tension in your meetings, it's not personality conflicts—it's the analyst needing data while the driver needs decisions. The collaborator seeking consensus while the innovator pushes for change. Everyone's right. Everyone's frustrated. And nothing moves forward.

DISC training transforms this friction into fuel. Your team discovers why certain partnerships click instantly while others feel like grinding gears. They learn to recognize the signs—who needs context, who needs bullet points, who needs to process out loud, who needs to think first.

It's not about changing people. It's about understanding them well enough to bring out their best.

Facilitated by Aaron Bowersox, Certified DISC Coach
