

The Metro West Chapter invites you to attend “Making Every Moment Matter” with Stacie VanDenBerghe of **CU INNOVATE**. This in-person event is designed for frontline employees but is open to all interested credit union professionals. Please forward this invitation to your team members as appropriate.

Event Overview: This session will cover how to leverage AI while working to make every member interaction matter. The introduction of AI into the workplace isn’t something that will replace your job but helps make your role more meaningful. Technology can’t replace the difference we make in our members’ lives; it can only enhance it.

Date: Monday, June 8, 2026
